## MAYOR'S UPDATE:

Spring has always symbolized new beginnings, and here in Mount Clemens, that spirit of renewal is all around us.

Your City Commission and City Administration have been hard at work on two of the most important responsibilities we carry: shaping our City's Strategic Plan and preparing the 2026/2027 budget. These efforts help ensure that every decision we make today supports a stronger, more vibrant, Mount Clemens tomorrow. Thoughtful planning, fiscal responsibility, and a clear vision for the future remain at the heart of everything we do.

Welcome newly elected City Commissioner, Roxanne Brown. Commissioner Brown was formerly a member of the Mount Clemens Planning Commission and long-time resident of Mount Clemens. We also said goodbye to Barb Dempsey who served her last meeting as City Commissioner on November 3, 2025. Please join us in thanking Barb for her many years of service to the residents of Mount Clemens.

Across the city, progress continues with several exciting projects. The Downtown Revitalization Project is entering its final phase, with the finishing touches bringing new life, beauty, and accessibility to our downtown streets. The Great Lakes Water Authority connection project is in full swing—an important investment in the long-term reliability and quality of our water infrastructure. And the City Commission is actively working to select a design team for our future City Hall and Fire Station, an initiative that will modernize essential services and create a welcoming civic space for generations to come.

As the days grow longer and warmer, I also encourage everyone to take full advantage of the many programs offered through Mount Clemens Parks and Recreation. Whether it's fitness classes, youth activities, special events, or simply enjoying the outdoors, our parks and facilities are here for you. Take a stroll through one of our beautiful parks, gather with family and friends, or try something new—you'll be amazed at what our community has to offer.

Spring is a reminder that growth is not only possible—it's happening right here. Thank you for being part of this journey and for continuing to believe in the future of Mount Clemens. Together, we are building a city that is stronger, more connected, and full of promise.

With gratitude and optimism,  
**Mayor Laura Kropp**

## COMMUNITY HIGHLIGHTS

We are excited to share that the new [mountclemens.gov](http://mountclemens.gov) is here! With improved search, better navigation, helpful links and a cleaner design, the City's new website will allow you to find the information you need easier and faster.

### Macomb Place is Open!

With new underground infrastructure in place, barrier free walkways and improved lighting, the City's downtown is looking better than ever before. Look for softscape items such as trees and flowers to be placed in the spring, along with the new fountain stage.

### Tinsel Tour

The 2025 Tinsel Tour was a success! Sponsors did an incredible job decorating trees on the Cherry Street Mall. These trees along with the City's large tree made the entire area sparkle with holiday spirit. Join in the fun and holiday spirit this year! Watch for the 2026 Tinsel Tour sign up information in October on our social media.

### Charitable Giving

In what has become an annual tradition, City of Mount Clemens employees, the Mount Clemens Firefighters Local 838, several commissioners and City contractors partnered with the Macomb Charitable Foundation to provide Christmas presents for Macomb County children. The toy wish lists of 21 children were purchased and each family was given a gift card for necessities.

### Kayak Rentals Will Be Back This Spring!

Get outside and enjoy the scenery along the river in Mount Clemens. Watch for information about rentals openings at both MacArthur Park and Shady Side Park on our social media. Check out the how-to video located on the City's Facebook page under the "Video" section (Kayaking in Mount Clemens) for more information. ## Spring Into Action: A Fresh Start in Mount Clemens

### ***A message from the City of Mount Clemens Parks and Recreation Department***

As the winter frost melts into the Clinton River, the City of Mount Clemens Parks and Recreation Department invites you to step outside and rediscover our beautiful natural resources. The best gym in the world doesn't have four walls—it has a canopy of maples and the sound of a flowing river. Spring is the perfect season to trade the indoors for our scenic boardwalks and wooded trails, fostering a healthier lifestyle right here in Mount Clemens. The Power of the Great Outdoors is more than just a change of scenery; it is a vital component of holistic health. Research shows that spending just 20 minutes in a natural setting can significantly lower stress hormones and improve cardiovascular health. In Mount Clemens, we are fortunate to have a diverse park system that offers unique opportunities for every resident. Whether you are looking for the quiet solitude of a morning walk at Shadyside Park or the high-energy fun of tennis at Olsen Park, outdoor activity boosts Vitamin D levels and improves mood. This spring, we encourage every resident to find their 'green space'—whether that is on a bike, in a kayak, or on a simple stroll downtown. Movement is the best way to celebrate the return of the sun.

# WHAT IS THE MACOMB CHARITABLE FOUNDATION?

The Macomb Charitable Foundation consists of a group of volunteers who assist homeless children in Macomb County.

These children, having been identified as homeless by their school district, are referred to MCF for help with clothing, hygiene items, emergency shelter, food, band assistance, prom dresses, tutoring, etc.

While our focus is on the child, we do mentor their parents financially, emotionally, and spiritually. All donations go directly to helping a Macomb County child in need—no one in this organization gets paid.

Call (586) 232-3473 and visit [www.macombcharitablefoundation.org](http://www.macombcharitablefoundation.org) to offer your support.

# THE ITALIAN HALL DISASTER

By Christmas morning, their party was national news.

“A holocaust unparalleled in the history of Michigan...ranking with such catastrophes as the sinking of the Titanic,” reported The Daily Mining Gazette. “Approximately 80 lives, mostly children, were lost.”

During the party, a man falsely yelled, “Fire!” The ensuing panic resulted in a stampede that killed 59 children and 14 adults. Bodies piled in front of the exit, making it impossible to escape the fabricated threat.

Charles Moyer, the miners’ union president, publicly claimed the incident was a malicious plot crafted by mining companies and strikebreakers. Two days later, Moyer was shot, kidnapped, and thrown on a train to

Chicago. His captors warned him to never return to Michigan.

To this day, the man who shouted fire has not been identified...

# REAL ESTATE & HOME IMPROVEMENT

## OUT OF WINTER, INTO SPRING: HOMEOWNER TASKS YOU'LL BE GLAD YOU DID

As our cold winter season finally fades, spring is the ideal time for homeowners to check in on their homes and get ahead of seasonal maintenance.

**Start indoors by preparing your heating and cooling systems.** Replace your furnace and air-conditioning filters. For your A/C, inspect the outdoor condenser unit to clean away leaves, dirt, debris, etc. And a little spring cleaning for your vents and registers might be in order, too. Additionally, test your smoke and carbon monoxide detectors, and check any batteries that may need replacing after the colder months.

**Take a walk around your home's exterior.** Inspect your roof, siding, and foundation for any damage caused by the winter elements. While you walk around, also check out your concrete walkways and driveway for cracks or uneven sections, and windows and doors for worn weatherstripping. Make sure you clean out your gutters and downspouts, too; ensure proper drainage for the rain, and double check that water is directed away from your foundation.

**Prepare your yard.** Rake up the remaining debris, trim your shrubs and trees, and check your fence and deck for

loose boards or rot. Early spring is also a good time to edge garden beds, refresh mulch, and reseed or aerate bare patches of your lawn. And if you use a sprinkler irrigation system, make sure you inspect it for leaks before turning it on for the season.

A little attention now can help prevent costly repairs later, and make your home more comfortable all year long!

The market in City of Mount Clemens remains strong with continued low sales as the result of low inventory. This trend does appear to be reversing as the year-over-year figures suggest. Please note that with small amounts of data, average sale price is likely to fluctuate, noticeably, and is a less reliable indicator than Days on Market.

## UNDERSTANDING THE NUMBERS

**Average Sale Price – Fair:** Q4’s numbers are a bit shy, thanks to a low volume—imagine trying to judge a pizza contest with only one slice to sample! But when we look at the big picture (the entire year, not just the last slice), the trend is clear: property values in Mt. Clemens keep climbing (average sale price in 2024: \$195,964, compared to \$184,937 the previous year). So, whether you’re buying, selling, or just enjoying your slice of neighborhood pie, owning in Mt. Clemens still looks like a smart long-term move. And that’s something we can all feel good about—no matter how thin the Q4 crust gets!

**Days on Market (DOM) – Good:** Still Looking Sharp: Homes are sticking around for less than 72 days, which lines up nicely with the long-term average in our area. Currently, the average is 51 DOM—so buyers get a little more breathing room to mull things over (no need to sprint through showings!), while sellers should remember that pricing wisely and acting thoughtfully is key. After all, you don’t want your opportunity to slip away while you’re busy baking cookies for the next open house!

**Inventory – Improving:** Any bump in available homes is like adding extra toppings to the neighborhood pizza—everybody gets a bigger slice! More inventory tends to put the brakes on wild price increases, helping keep homes from turning into luxury treats that only the ultra-rich can afford. But sellers, beware: with extra choices on the table, it’s not the time to get too saucy with your pricing. Price your home wisely, or you might find buyers skipping your “slice” for one that looks just a bit tastier down the street!

**Absorption Rate – Seller’s market:** Homes are still flying off the shelves fast enough to keep sellers smiling—think of it like having the last slice of pizza at a party, everyone wants a bite! But hold on to your pepperoni: the pace is slowing down, and we’re starting to see things even out. Soon, it might be less about who grabs the biggest slice and more about sharing equally, with neither buyer nor seller hogging all the toppings.

# UNDERSTANDING MORTGAGE DECISIONS IN TODAY'S HOUSING MARKET

*An educational guide for today's homebuyers*

Mortgage decisions today are about more than simply purchasing a home—they're about understanding how financing choices shape long-term stability. As the housing market continues to normalize, education has become one of the most valuable tools for buyers, especially those entering homeownership for the first time.

## Why Mortgage Structure Matters

A mortgage is more than a monthly payment. Loan terms, repayment structure, and how a balance is paid down over time all influence affordability and equity growth. Buyers who understand these fundamentals are better prepared to choose financing that supports both their lifestyle and long-term financial goals.

*“Understanding  
how a mortgage works  
is just as important as  
choosing the right home.”*

## Predictability Supports Better Planning

Consistent housing costs allow homeowners to plan with confidence. Understanding how different loan options affect payment stability helps buyers avoid surprises and build a strong financial foundation.

## Refinancing as a Long-Term Consideration

Refinancing is often misunderstood as a short-term tactic. In reality, it's a planning tool that homeowners may use to realign their mortgage with changing life circumstances or financial priorities.

## Supply, Demand, and Decision-Making

While price growth has moderated, housing supply remains limited in many areas. Knowing how supply and demand affect the market helps buyers approach homeownership thoughtfully rather than reactively.

## Education Builds Confidence

In a more balanced market, informed buyers are empowered buyers. Taking time to learn how mortgages work leads to clearer decisions, reduced stress, and a more confident path to homeownership.

## Mortgage Basics Every Buyer Should Understand

### Loan Term

The length of time you have to repay your mortgage. Common terms range from shorter timelines to longer ones, which impact how payments are structured over time.

### Amortization

How each payment is divided between principal and interest. Early payments are structured differently than later ones, which affects how equity builds.

### Equity

The portion of your home you truly own. Equity grows as you pay down your loan and as property value changes over time.

### Refinancing

Replacing an existing mortgage with a new one to better align with financial or lifestyle goals. Often used as a long-term planning tool.

### Fixed vs. Adjustable Loans

Fixed loans offer consistency, while adjustable loans change over time. Understanding the differences helps buyers choose stability or flexibility.

### Pre-Approval

An early step that helps buyers understand purchasing power before shopping for a home.
